

Coppell Senior and Community Center Inclement Weather Procedure for Private Rentals

The Coppell Senior and Community Center strives to remain open to the public during periods of inclement weather and will make every effort to do so as long as driving conditions are not hazardous. In the event of inclement weather and hazardous driving conditions, please note that the Coppell Senior and Community Center follows the operating decisions of the City of Coppell. If the City of Coppell is “closed” due to inclement weather, all rentals will be canceled, and the Center staff will work with the renter to reschedule the event to an alternate date. If an alternate date cannot be identified, all rental fees paid will be refunded.

Any events scheduled “after hours” and on weekends will be monitored for hazardous driving conditions, and the final decision will be made by the Parks and Recreation Department. If the Parks and Recreation Department deems driving conditions hazardous due to inclement weather, all rentals will be canceled, and the Center staff will work with the renter to reschedule the event to an alternate date. If an alternate date cannot be identified, all rental fees paid will be refunded. Also, please be aware that a power outages or other unforeseen situations may warrant the closing of the Center.

While it is our goal to serve our renters to the best of our ability, the safety of our customers and staff is our primary concern. When the Center is closed, either completely or for part of the day, you will be contacted by the Community Center Coordinator or the Senior and Community Center Manager. You can also receive facility updates by visiting www.coppelltx.gov.
