Lisa.Law@twcable.com

***REFER TO OTHER SIDE OF THIS SHEET IF UNABLE TO CONTACT MS. LAW**

TIME WARNER CONTACTS FOR PLATTING

Plats, along with any other documents requiring a signature can be signed at either the Coppell or Dallas Design offices. Staff time is generally split between the two offices. Below is a list of contact names and information for the people that can provide signatures, if an original signature is needed:

Coppell Design Office:

750 Canyon Dr, 4th floor
Coppell, TX 75019

Call one of the numbers on the list below, and someone meet you downstairs to sign. Staff lunches are staggered (11:30 & 1:00), so coverage might be a bit thin during that time. Office hours are generally 6:00 a.m. to 4:00 p.m.

The Dallas Design office:

Time Warner Cable
1565 Chenault St
Dallas, TX 75228 (Located on the east side of Dallas, a couple of blocks northwest of the I-30/Buckner Blvd intersection)

Towards the western side of the main (larger) building, there is a door labeled 'Administrative Office' where a phone is located at the entry desk, which can be used to call the appropriate party. (The eastern end of this main building houses a small customer service/cash office that is separate from the Construction & Design departments.) The last four digits of each phone number listed above are the extensions used to reach each person's desk. Normal hours for the Design office as a whole are 6:30 am – 5:30 pm M-F; we work a staggered four-day workweek with some of us here Monday through Thursday and the others here Tuesday through Friday. The front office is normally open from around 7:00 am to 4:00 pm each workday; if someone drops by and the front office is not open then we can sign in the parking lot.

Fax number for the Dallas Design office: 214-320-7559
